Cottonwood Outfitters

Your place to hunt in Northwest Oklahoma

Cottonwood Outfitters owns the rights to approximately 1800 acres in Woods County Oklahoma. The largest parcel, under management for six years, includes 1200 acres composed of

a mixture of cottonwoods, red cedars, and ash trees, cropland, and native sand hill pasture bordered by over 1.5 miles of the Cimarron River. It is located 8 miles southeast of Waynoka, a 2.5 hour drive northwest of Oklahoma City.

In addition to our year round management efforts, the property is ideal habitat for Oklahoma Whitetail deer and Rio Grande turkeys. The combination of cropland, trees, and pasture attracts an abundant amount of game.

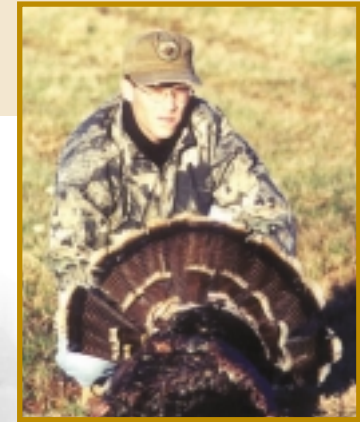

Over the past five years it has not been uncommon to see between 50 to 75 birds and from 25 to 50 Whitetail deer.

Our current prices can be found on our website: www.cottonwoodoutfitters.com

We are a group of fellow hunters who do not rely on this income. We use it help offset the cost of our own hunting adventures and enjoy meeting other hunters from around the country.

Our location also affords you the opportunity to experience a number of unique state parks including Little Sahara State Park, Alabaster Caverns State Park, and the Great Salt Plains State Park.
